🐙 Pourya-Moghadam74

PROFILE

Data Scientist with industry experience in large-scale e-commerce logistics and PhD in AI at the University of Toronto. Specializes in A/B testing, causal inference, and metric-driven decision-making to evaluate product and operational impact.

SKILLS

- **Programming:** Python, SQL (joins, aggregations, window functions)
- **Experimentation & Statistics:** A/B Testing, Hypothesis Testing, Causal Inference, Regression Analysis
- **Machine Learning:** Supervised Learning, Unsupervised Learning, NLP
- **Tools:** Pandas, PySpark, NumPy, Tableau, Power BI
- **Cloud:** AWS/GCP

PROFESSIONAL EXPERIENCE

Data Scientist

Jan 2024 – Apr 2025

Masterly Inc., Toronto, Canada

- Built data pipelines aggregating Google Scholar and Scopus data, processing **100K+ researcher profiles**.
- Designed evaluation metrics to standardize decision-making in grant and hiring workflows.
- Developed dashboards reducing evaluation time by **65%** (25 → 8 min).
- Improved selection precision by **18%** and reduced reviewer variability by **35%**.
- Analyzed **1M+ reviews** using NLP for sentiment and product insights.

Data Scientist

Jun 2021 – Aug 2023

Digikala, Tehran, Iran

- Designed and analyzed A/B experiments improving **on-time delivery by 4%**.
- Defined key metrics enabling data-driven logistics optimization.
- Built pipelines and dashboards reducing **cost per order by 10%**.
- Applied causal inference to estimate treatment effects and guide decisions.
- Analyzed large-scale data (millions of records) to optimize delivery workflows.

PROJECTS

Energy Disaggregation for Smart Homes

- Built ML models to disaggregate energy usage into appliance-level consumption.
- Achieved **F1 > 90%**, enabling energy optimization and anomaly detection.

Activity Monitoring Using Multimodal Sensors

- Developed models to analyze activity patterns for behavior monitoring and anomaly detection.

LLM-Powered Analytics Assistant

- Built a system using LLM APIs to generate structured insights from natural language queries over data.
- Enabled non-technical users to explore data and support decision-making interactively.

EDUCATION

PH.D., ARTIFICIAL INTELLIGENCE

University of Toronto

📅 2023 – Aug 2026

M.SC., INDUSTRIAL ENGINEERING

Amirkabir University of Technology

📅 2019 – 2022

PUBLICATIONS

3+ publications in AI/ML, including submissions to ICML, IEEE JBHI, and Neurocomputing.
